

Cherwell Green Team

Cherwell College, Oxford is launching its own 'green' initiative, which will be enacted and reinforced by Cherwell's student-led Green Team.

Cherwell College's Green Initiative aims to:

- Reduce non-biodegradable waste in use at Cherwell College
- Educate people, to encourage better recycling habits and more responsible consumerism.
- Impact national and local government's policy, regarding waste disposal and plastic productions
- Lobby large companies (including multi-nationals) to introduce environmentally friendly and biodegradable packaging.
- Increase environmental awareness in the local community.

Cherwell College's student-led 'Green Team' will reinforce the college's Green Initiative by:

- Encouraging students to recycle properly, and dispose of waste suitably.
- Research alternative methods of waste disposal.
- Pressure the college to take every measure possible to reduce our plastic-usage.
- Write to local MPs and councils on issues concerning the local area, environmental protection and waste disposal.
- Write to companies that use polluting plastics to incite them to reconsider their policies and reduce their impact on the environment.
