

Driving Range Trip

18.03.2017

On Saturday 18th March, students from Cherwell College visited the driving range at Oxford Golf Centre.

It turned out to be a really fun trip, and all students who attended enjoyed aiming golf balls at the targets set out on the range; these included a disused car, rugby posts, metal barrels and signs.

Other students spent more time perfecting their swing and technique, to improve the accuracy of their shots.

We hope to return to the Oxford Golf Centre soon, both for the driving range and the small putting course.
